I offer the land in Montenegro - a European country with stunning views, and organic everything! I lived there for a year and bought the land, as an investment to build villa and rent it out. However due to my job relocation, I would like to change it to the land or house in the USA. I definitely fell in love with Montenegro, it has such a history and great food! Amazing seafood and all organic fruits and vegetables! It is the first line property with the best view over the bay of Kotor. I offer it with all the building permission and will definitely help you out with all the construction process, I have great people to refer you too. A company from London, me neighbors their build with them - and they did an amazing job. The size of the house? ??which can be build is:? - Ground floor net area 1578 sq ft - First floor net area 1578 sq ft - Roof/attic net area 707,08 sq ft - Terrace?e on the roof 1160 sq ft ?The house will consist 5 bedroom? each? with bathroom? and wardrobe?. ?There will as well be one guest-bathroom, technical room? as laundry room? etc. Living room? and kitchen as open-air area? with dining room. On the top of the house there will be? possibility for? sauna, Jacuzzi, open ?t?er?race with? ?open air kitchen etc. ?All according with what the new owner has of ideas. We have payed for developing the project, payed for connecting to the local water supply, the local electricity supply, municipality taxes etc.
